

## BIOHAZARD RISK ASSESSMENT FORM

To be completed prior to acceptance of a microorganism into Istituto Zooprofilattico Sperimentale della Lombardia e dell'Emilia Romagna "Bruno Ubertini" (IZSLER)

### 1 Identification of the material and the establishment

1.1 Material:  Bacteria  Virus  Bacteriophage  Plasmid

1.2 Description material:

1.3 Company:

Address:

Phone:

– Fax:

1.3 Useful address Shipment scientific responsible:

Name:

Laboratory:

Address:

Phone:

– Fax:

E – mail:

### 2 Composition and information on ingredients

2.1 Microorganism classified as:

– Biological hazard group:

2.2 Protective agent to prevent damage to the microbial cells during the preservation process:

### 3 Hazard identification

*Physical – chemical hazard:*

*Health hazard:*

*Environmental hazard:*

### 4 First aid measures

*Contact with skin:*

*Contact with eyes:*

*Ingestion:*

5	<b><i>Fire fighting measures</i></b>
6	<b>Accidental release measures</b>
7	<b>Handling and storage</b>
8	<b><i>Exposure controls and personal protection</i></b>
9	<b>Physical and chemical properties</b>  – Freeze / dried isolated: – Frozen isolated:
10	<b>Stability and reactivity</b>
11	<b>Toxicological information</b>
12	<b>Ecological information</b>
13	<b>Disposal considerations</b>
14	<b>Transport information</b>
15	<b>Biological agent hazard group:</b>
16	<b>Other information</b>

Date:
